Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

The prior art, particularly Fitts (US 2,171,925) shows fasteners as claimed. The prior art does not teach or suggest the combination of features claimed. For example, the prior art does not suggest a fastener with a polymeric portion having support posts and a metallic portion with edges embedded and non-releasably connected to the polymeric portion in addition to all other limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
